

Vivek Singh

Program: B.Tech — Specialisation: CSE — Graduation Year: 2028
Phone: 8288824985 — Email: vivek.singh.24cse@bmu.edu.in — LinkedIn — GitHub
Portfolio: Portfolio — Engineering Playbook — Change Blueprint

Education

B.Tech, CSE	2024 – 2028
Percentage / CGPA: 67% / 6.78	
12th / Higher Secondary	CBSE / Punjab
Stream (Science)	Percentage / CGPA: 72% / 7.20
10th / Secondary	ICSE / Punjab
Percentage / CGPA: 80% / 8.00	

Skills

Programming Languages: Python, C/C++, Java, JavaScript
Frameworks & Libraries: OpenCV, TensorFlow, PyTorch, React, Node.js, Express, Matplotlib, Pandas, NumPy, Anaconda
Databases & Tools: MySQL, MongoDB, Git, Docker, Linux
Concepts: OOP, REST APIs, Agile Development, System Design Basics

Projects

Smart Water Tank Hygiene and Water Quality Monitoring System Jan 2025 – May 2025
Tech: ESP8266 (Microcontroller), Sensors, Arduino IDE, IoT

- Built an IoT-enabled water quality monitoring system using ESP8266, integrating TDS, pH, turbidity, and ultrasonic sensors for real-time analysis and transmission
- Automated contamination detection with continuous monitoring, reducing manual inspection efforts and enabling faster decision-making.

Full-Stack Web Application Aug 2025 – Dec 2025
Tech: MERN Stack, REST APIs

- Built a responsive web platform using **HTML**, **CSS**, **JavaScript** to connect exporters with potential buyers, featuring dynamic product listings and user-friendly navigation.
- Implemented core functionalities like **user authentication**, **database integration**, and **CRUD operations** to manage exporter profiles and product data efficiently.

Loan Approval Prediction Model Aug 2025 – Dec 2025
Tech: Python, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn

- Built a loan approval prediction model using **Scikit-learn** with algorithms like Logistic Regression and KNN, leveraging **Pandas** and **NumPy** for data preprocessing and feature handling.
- Performed comprehensive Exploratory Data Analysis (EDA) and data visualization using **Matplotlib** and **Seaborn**, and applied statistical techniques with **SciPy** to improve model accuracy and insights.

Internship / Training

Acmegrade (Machine Learning Intern) Dec 2024 - Jan 2025

- Completed a Machine Learning training program, implementing models like Logistic Regression and KNN using **Scikit-learn**, along with data preprocessing using **Pandas** and **NumPy**.
- Conducted Exploratory Data Analysis (EDA) and built a loan approval prediction system, utilizing **Matplotlib** and **Seaborn** for visualization and applying statistical methods with **SciPy** to derive insights.

Achievements & Responsibilities

- Certification: **Machine Learning Intern** – Acmegrade.
- General Secretary** (The Performing Arts Club) – Organized 10+ Events with 150+ participants.
- Technical Lead** (Various Clubs) - Managed and Executed various events by providing technical support (AV Systems and Sound Systems) at various clubs within university.
